So, point 7, we are all agreed on proposing a new meta-competence to the commission: "learning to earn, the challenge for 2021". And our new non-native speakers will draft the text by the end of next month.

And that brings us nicely to point 8 and our eternal question: how to fund our next massive step in support of harmony and world peace?

I have a terrific idea for a type of subvention we never tried for yet...

**Spiffy's singular organisation meet for the annual general meeting in their favourite bar**

What are our deadlines? Or are they "lifelines"?

That's amazing! What a great programme!

Yes, let's work backwards from the deadline – none of that last minute stuff for us!

Aha, this means we have to make a plan! Who does what and when?

We must put into operation what Spiffy was training us about in the last workshop!

You have probably heard of Lithuanian pioneers Learning at Ease... Spiffy Travel brings you Learning in the Financial Squeeze. Go to new places in the world and experience climbing the walls of their banks as they collapse. Non-formal acquisition of competence at its most dangerous. Soundtrack provided by Einstürzende Neubauten and Lady Gaga.

We are late! It's all your fault, you big noodle!! Can't you even construct a balanced budget??!

Today is 24 FEBRUARY

Oh, you can talk!! I bet you think Excel is the size of your t-shirt!!

Come on! Keep going! We should really try to finish before 3 in the morning!

**Constructive harmony helps working relationships...**

**Flag sheep for sale.**  
Open to highest bidder. Cause: mistake in bulk wholesale order. Should have been "flag ships" as part of post-Lisbon goals public relations campaign.

Somewhat our heroes manage to draft the application, but then they realise that you have to upload the application through the internet! And all over Europe project organisers are attempting to do the same thing at the same time...

Oh these modernisers! What was so wrong about e-mail attachments?!
