

RIGHTS OF SCHOOL

Haha! Children under 2m do not have the right to education!

What about me? When you were 1st grade why did you go to school?

I was taller, and I wasn't black!

All children have the right to education.

Hmm...

Yes I'd love that!

Would you like some company?

No, I'm a Buddhist

Do you believe in God?

Oh, I don't hang out with Buddhist

No, and I don't care.

Why don't you know about freedom of religion?

Go away. It's time for the professionals to play.

This is how we score!

I have the right to play and to be educated because I am a child.

One day I'll become famous for my ideas.

Yeah, sure. You're black, short and a Buddhist.

During the prayer

A child is going to talk to us about the school rights.

All children have rights and especially to school, education, fun, safety regardless of colour, religion, height. We are all equal. Words like equality, brotherhood and justice are born in the world. I'm Martin Luther King and I'm going to fight for our right to education.
