

what is AI?

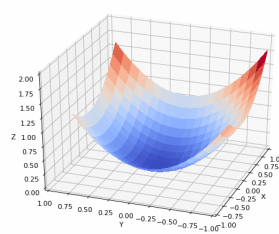

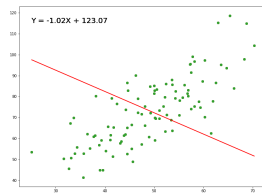

AI = ML

**AI is trained
on data**

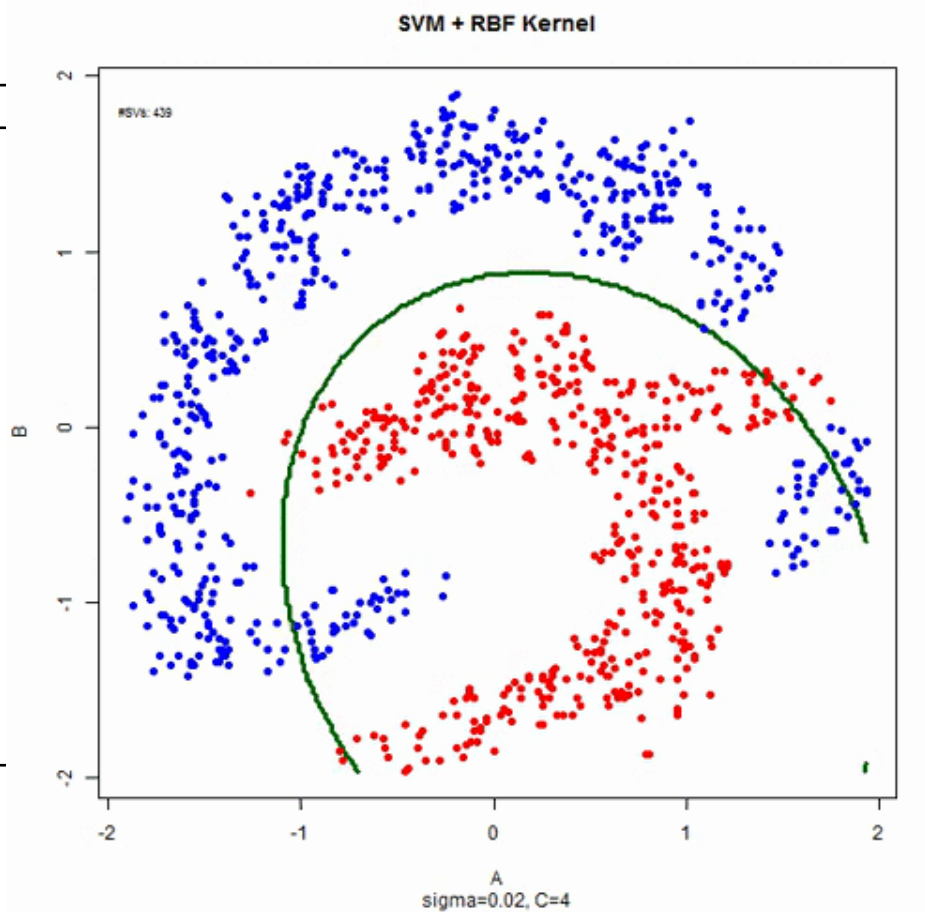

what comes
with social
data?

= bias

learning?

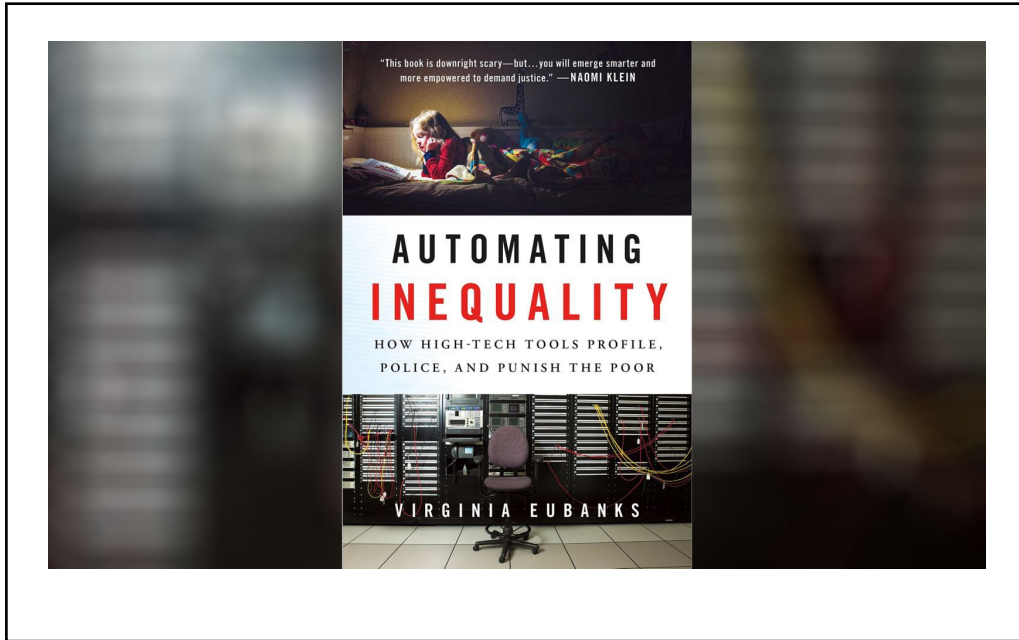

statistical pattern finding

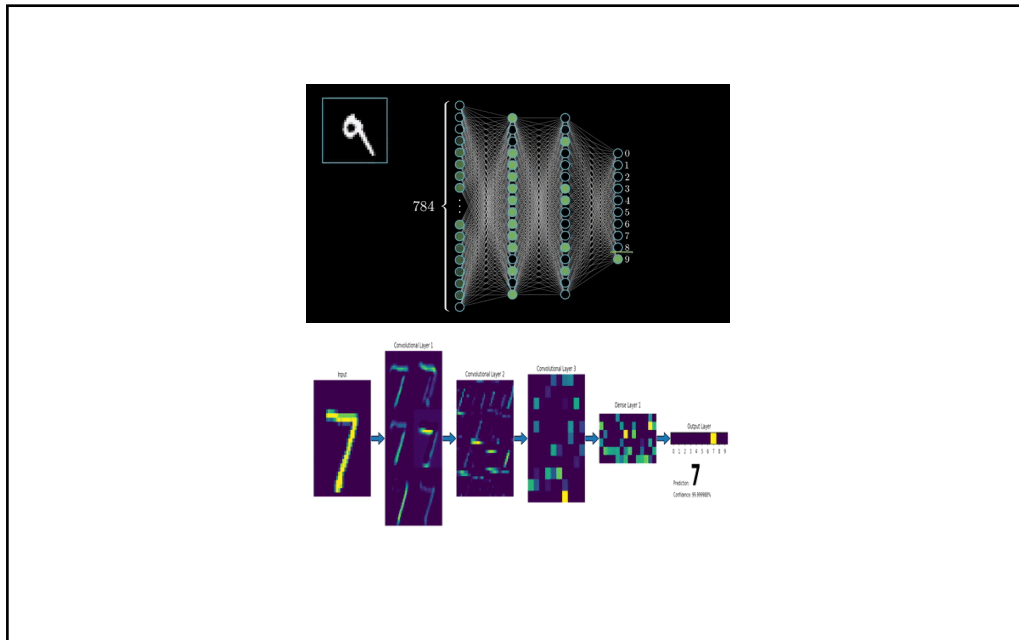

applied to
people?

=

stereotyping

neural networks

difficult to reverse
to human
reasoning

what about
decisions?

= opacity,
thoughtlessness

correlation
machines

should we
care?

= wrong
interventions

also, it can
fail!

AI != understanding

AI -> intervention

People's Councils on AI for Young People
