REPORT

**From the second meeting of the working
group on**

“Agriculture and Food Processing”

Held in Sarajevo on 25 April 2014

Presentation outline

- Presentation of the study programmes analysed
- Recommendations by the International Union of Food Science and Technology (IUFoST) for the programme of study in food technology
- Analysis of subjects in the food technology programmes of study
- General structure of subjects in the programmes of study
 - Mandatory subjects
 - Elective subjects
 - Practical work
 - Final thesis
- Harmonisation of the food technology study programmes with IUFoST recommendations in terms of ECTS and analysis of ECTS ranges for identical or similar subjects
- **Grouping subjects which are identical or similar** at most of the programmes analysed

Titles of programmes and universities	<p>University of Tuzla, Faculty of Technology, Food technology undergraduate programme (4 years)</p>
	<p>University of Sarajevo, Faculty of Agriculture and Food Sciences, Food technology undergraduate programme (3 years)</p>
	<p>University of Bihać, Faculty of Bio-technology, Food technology undergraduate programme (4 years)</p>
	<p>University of Banja Luka, Faculty of Technology, Bio-technology and food processing, production branch, undergraduate programme (4 years)</p>
	<p>University of East Sarajevo, Faculty of Tehcnology in Zvornik, Chemical Engineering and Technology Department, food engineering branch - module</p>

- The International Union of Food Science and Technology (IUFoST), a country-membership organisation is the global voice of food science and technology.
- It is a voluntary, non-profit federation of national food science organisations linking the world's food scientists and technologists.

Study programmes in Food Technology (1st cycle)

General structure

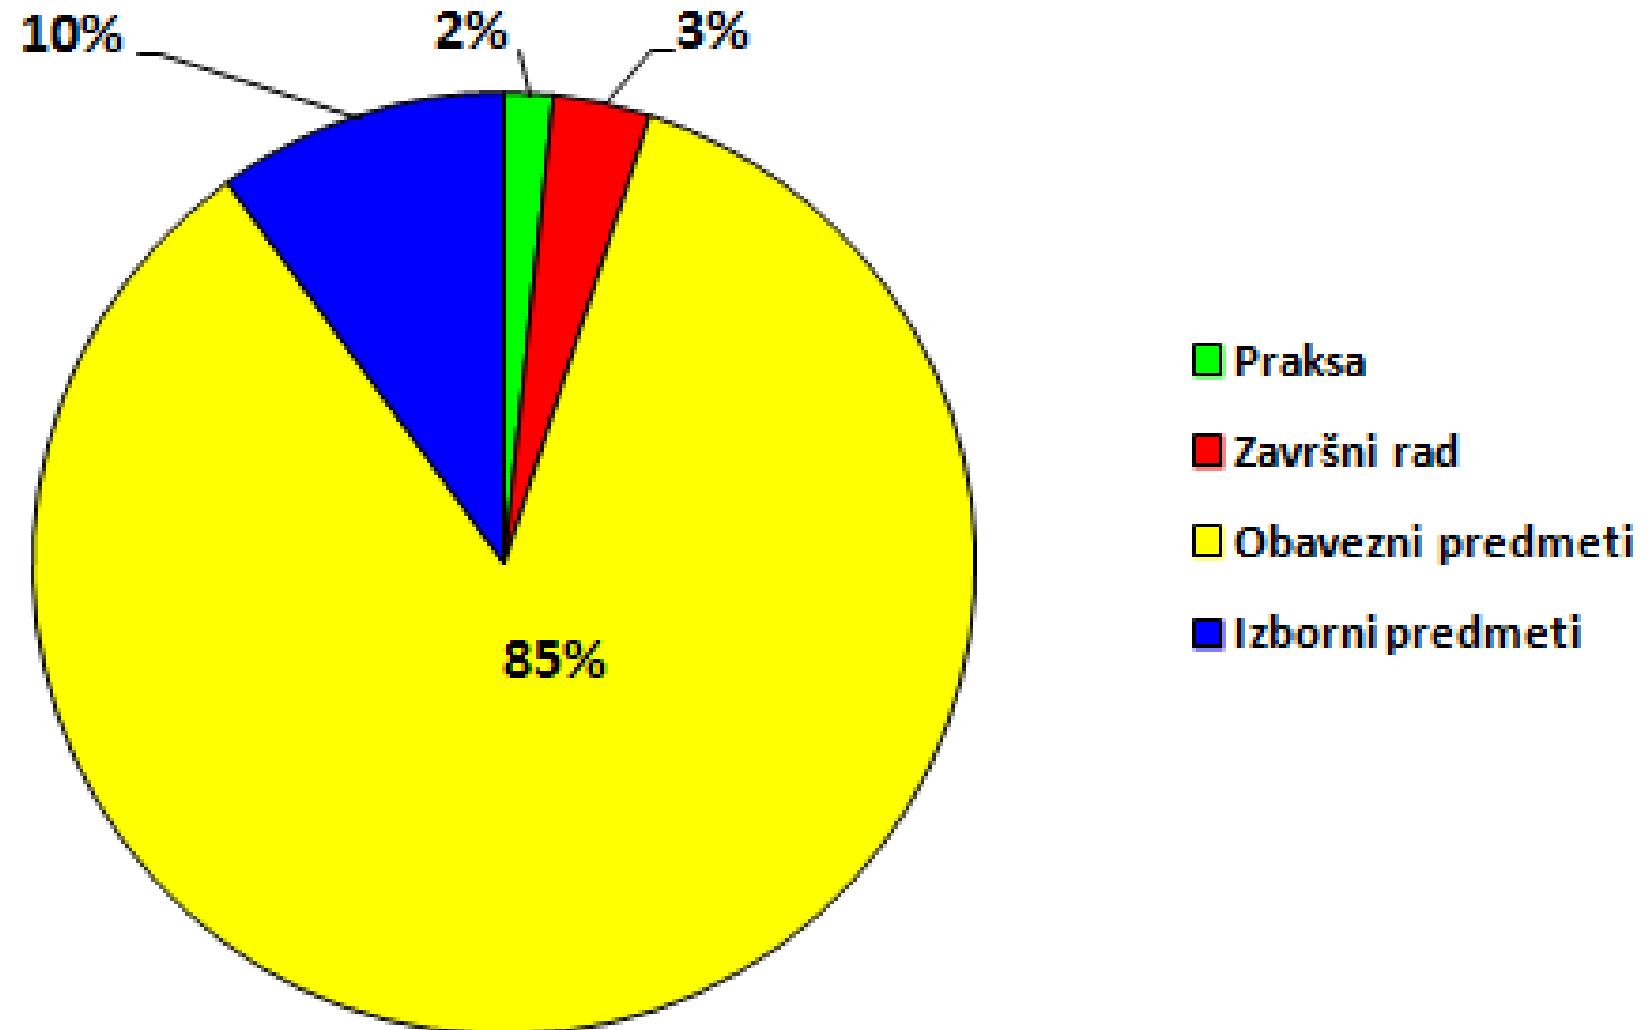

UNBL - Tehnološki fakultet Banja Luka
Biotehnološko prehrambeni (smjer Proizvodni) - 240 ECTS

UNIS - Tehnološki fakultet Zvornik
Hemijsko inženjerstvo i tehnologija (Izborni modul:
Prehrambeno inženjerstvo) - 240 ECTS

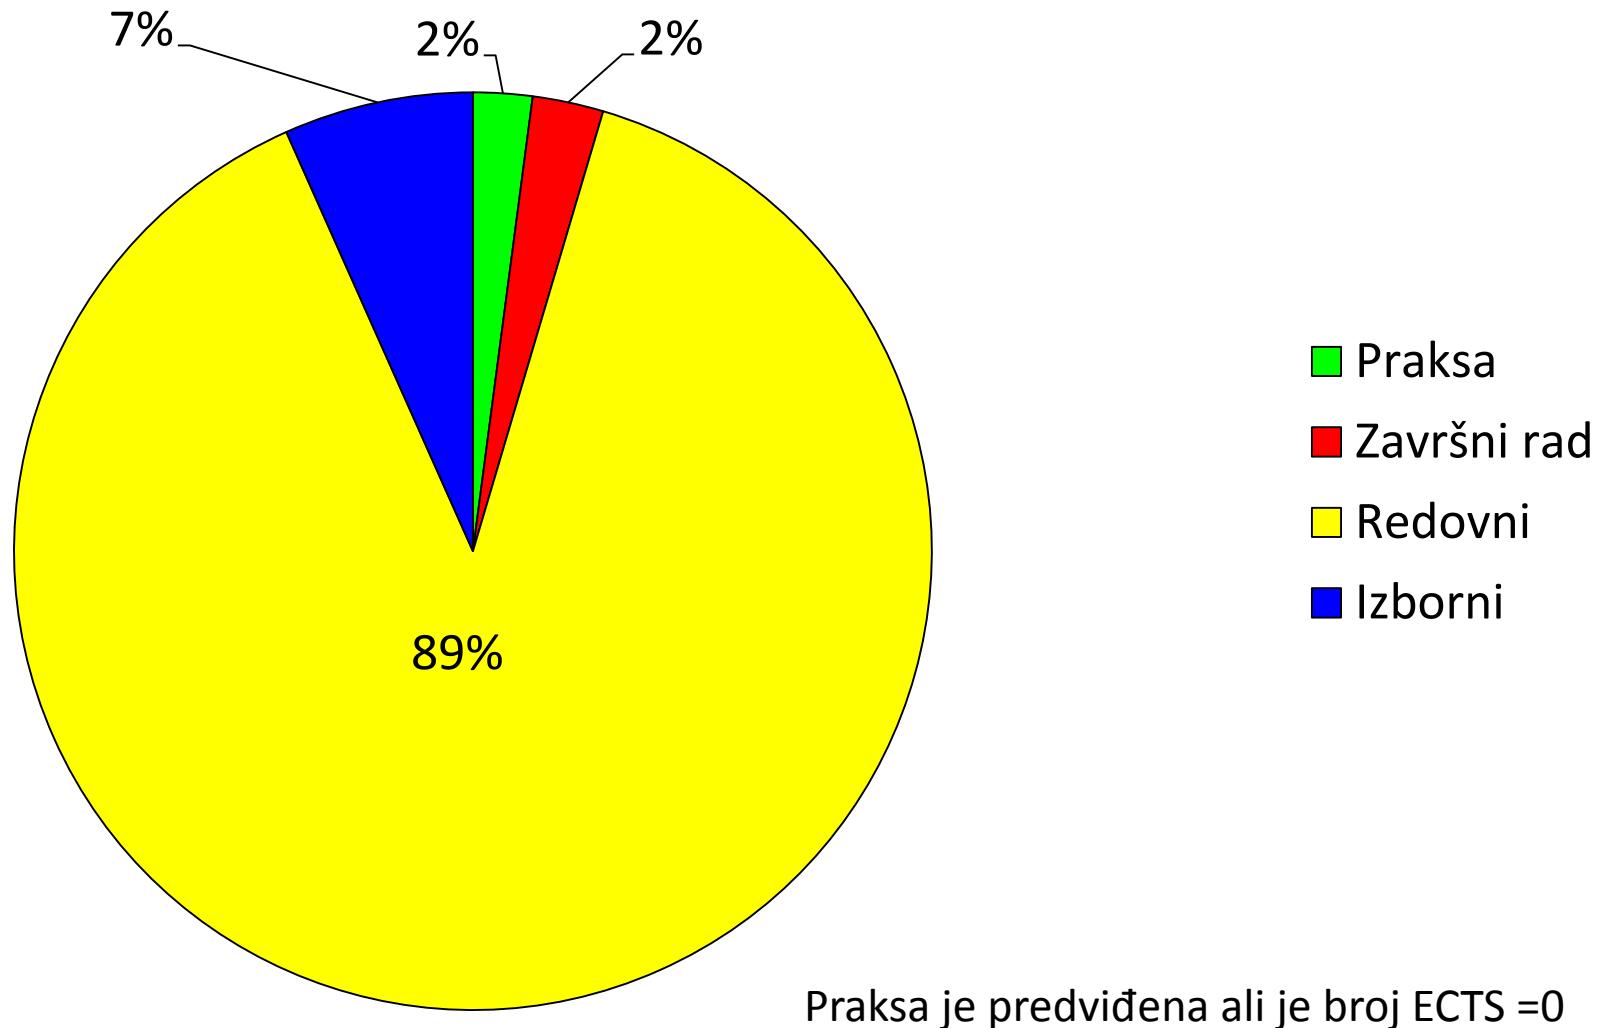

UNSA - Poljoprivredno-prehrambeni fakultet Sarajevo
Prehrambene tehnologije - 180 ECTS

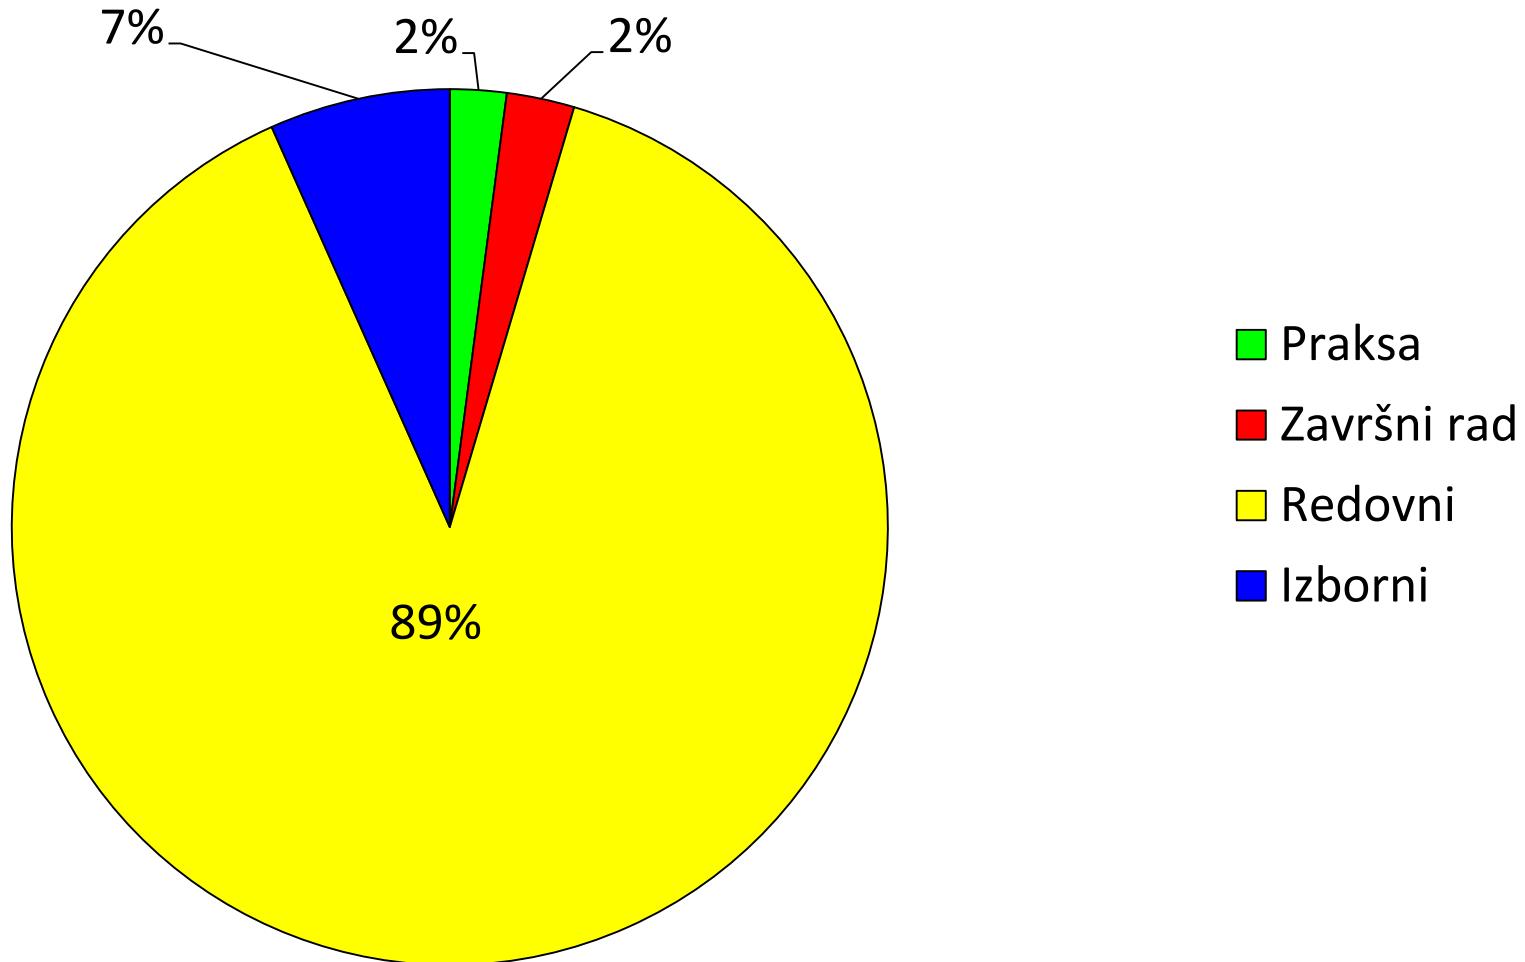

UNTZ - Tehnološki fakultet Tuzla

Prehrambena tehnologija - 240 ECTS

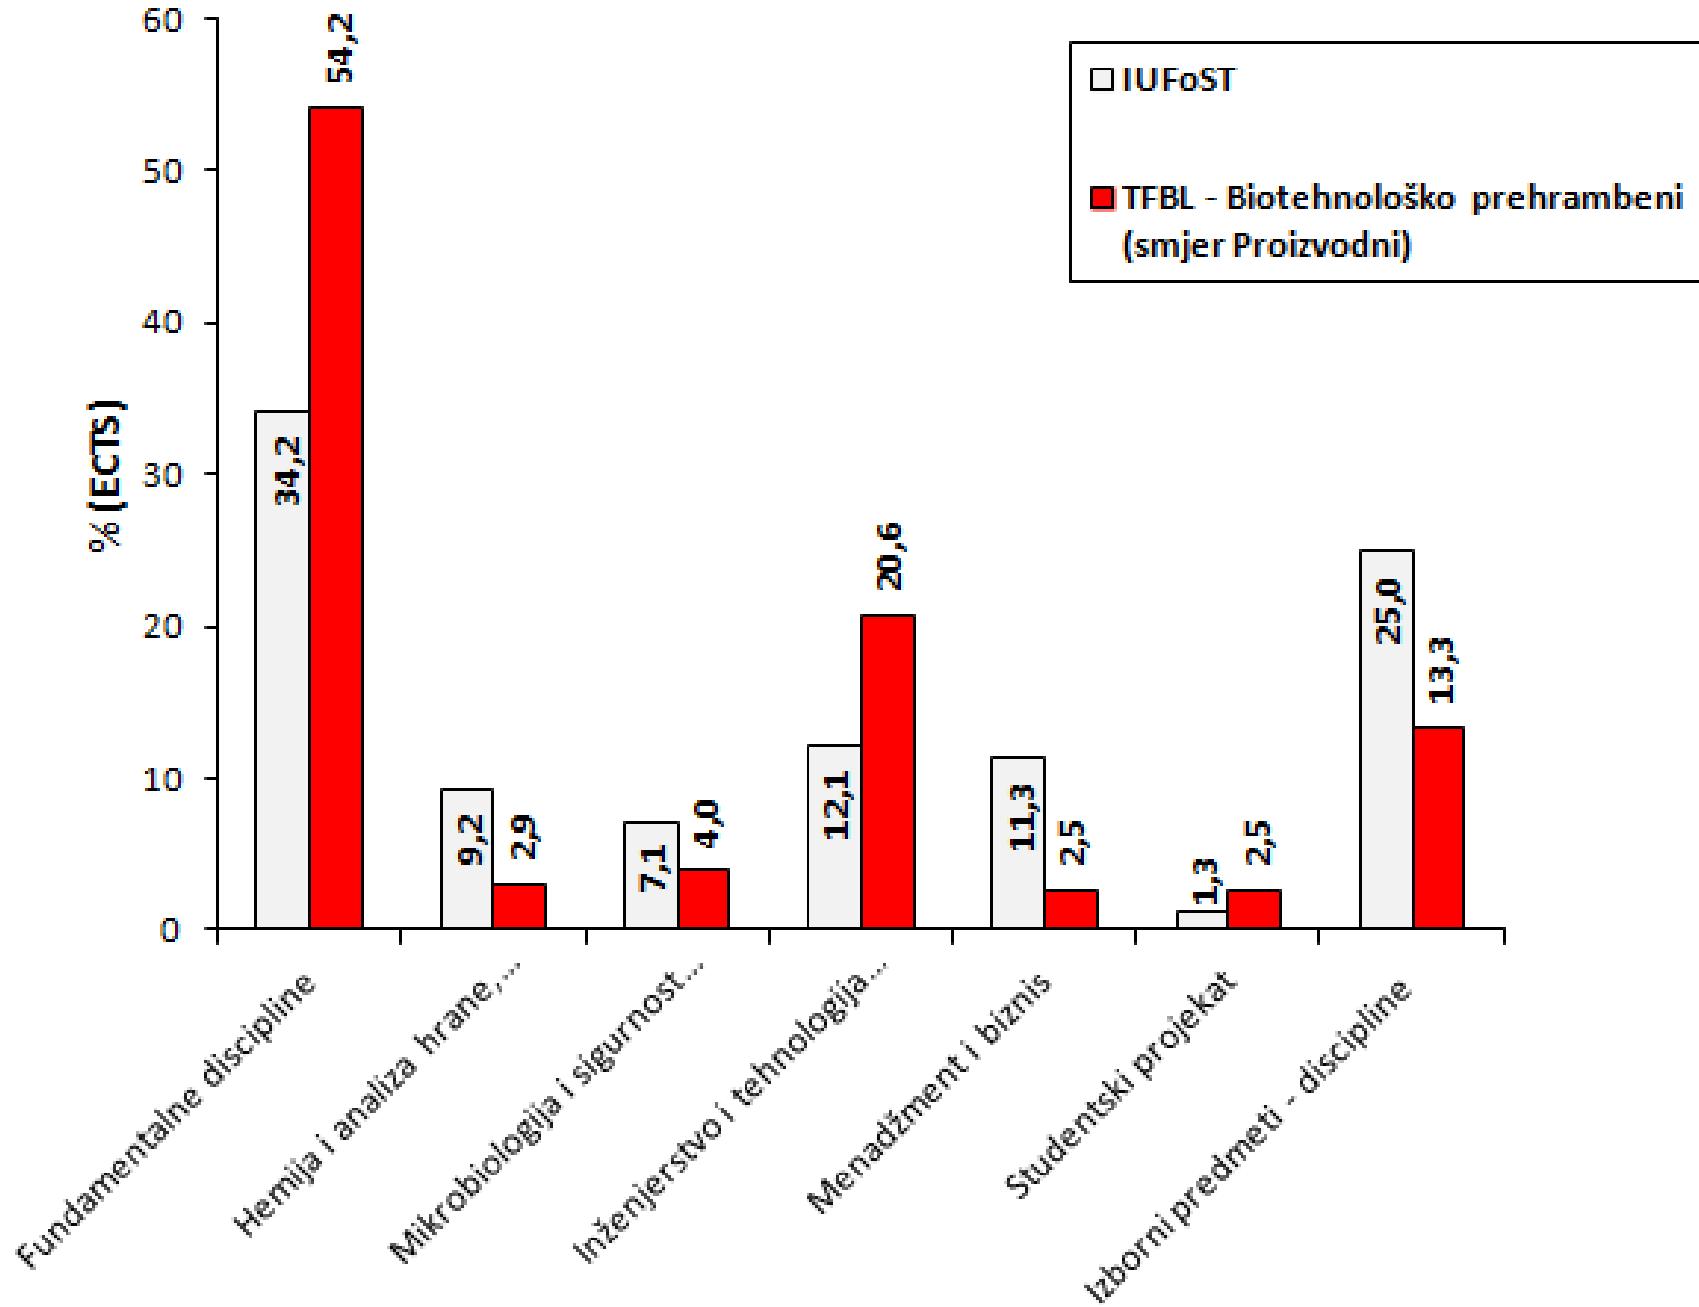

UNBI - Biotehnički fakultet Bihać

Conclusions

- The programmes of study analysed here include a certain level of harmonisation in terms of subjects within individual groups analysed (Fundamental sciences; Food chemistry and nutrition; Food safety and microbiology; Environment; Food engineering and technology)
- A comparison of programmes of study with the IUFoST recommendations shows that there is room for improvement in terms of quality and harmonisation of the food technology programmes analysed within this project

Thank you for your attention
